

Dormeuil Millennial:

Millennial® is a current line of innovative and elegant fabrics inspired by the House of Dormeuil's long-standing expertise and technology. Millennial® boasts a natural stretch that offers both comfort and modern elegance. The collection is divided into two parts : while the first shines a spotlight on plain fabrics and bold designs, the second offers a technical and practical range with unique characteristics; water-repellent, breathable, and crease-resistant.

In keeping with the House of Dormeuil's sustainability commitments the Millennial® line is produced exclusively from RWS certified wool (Responsible Wool Standard), safeguarding both animal welfare and protecting the environment. Millennial® fabrics contain 100% RWS wool certified by Ecocert Greenlife according to the RWS Standard available on <http://textileexchange.org/> License 234502 Dormeuil Frères.
