

Scabal Londoner:

Made at the Scabal mill in Yorkshire, Londoner is a collection of quintessentially British suitings.

With a selection of over 40 fabrics, there is a wide choice of colors and patterns all in a luxurious Super 140's wool which gives an exceptionally soft hand feel and an elegant drape to the cloth.

Overall, the ground color palette is a classic mix of blues, mid and dark grey and blacks with patterns and checks that look subtle from a distance but close-up reveal the intricate and complex color combinations that give them a Scabal twist.

You will also discover some micro-designs and shadow stripes that work equally well for smart business suits or elegant eveningwear year-round.
